

## CERTIFIED Service & Support

FOR NASH®, GARO® AND HOFFMAN® & LAMSON® PRODUCTS

The 11,000 square-foot Gardner Denver Nash facility in Houston, Texas specializes in the repair and rebuild of high pressure compressors for the region's critical processing operations in oil & gas, petrochemical, chemical and general industrial applications.

Our staff is factory trained and our shelves are stocked with OEM parts. We are the ONLY service center in Houston who can restore your NASH, GARO or Hoffman & Lamson product to OEM specifications, using the original design drawings and specifications.

Restore performance and efficiency, maintain reliability and lower total cost of ownership with OEM quality parts, factory trained technicians, and over a century of engineering, design and manufacturing expertise.

Demanding industrial processes require equipment that can stand up to the task, but even the most durable equipment requires routine maintenance and occasional service and repair to maintain reliable and efficient performance.

When you need service you need it fast - and you need it to last. Don't risk it with generic parts, unexperienced repair shops, and untrained technicians.

Our certified team of factory trained technicians, certified service centers, and available inventory of OEM parts deliver quality, long lasting repairs lowering your total cost of ownership and returning unit to service as quickly as possible.

Some companies claim to offer service for Nash Products, but only we certify it.

Protect your investment. Insist on OEM parts and CERTIFIED service for your NASH, GARO and HOFFMAN & LAMSON equipment.

Our level of service is unparalleled. Our pricing is competitive. And performance is GUARANTEED.
